

# Watermelons

## WM16-20 - Citron Red Watermelons

100 days. Citrullus lanatus. Open Pollinated. The plant produces high yields of small dark green watermelons. This is not your typical watermelon. It has white flesh with red seeds. The flesh is tasteless and is used to make preserves and sweetmeats that are added to fruitcakes, cookies, and puddings. It got its name from the unique appearance of its white flesh with bright red seeds! The best ones can be stored for up to a year.

Drought-Tolerant. A variety that was widely grown in the 1930s and 1940s. An excellent choice for home gardens.

## WM8-20 - Desert King Watermelon Seeds

85 days. Citrullus lanatus. Open Pollinated. Desert King Watermelon. The plant produces good yields of watermelons. It has deep yellow flesh that is very delicious. One of the best drought tolerant watermelon varieties on the market. They hold on the vine a month or so after ripening and will not sunburn. Every watermelon lover should try this variety. Drought Tolerant. Excellent choice for home gardens and specialty market growers. United States Department of Agriculture, NSL 29603.

## WM27-20 - Greybelle Watermelon Seeds

80 days. Citrullus lanatus. Open Pollinated. Greybelle Watermelon. The plant produces good yields of nearly 15 lb round watermelons. It has a grey green rind. The watermelons have dark red flesh and are very sweet and delicious. Resists sunburn. Drought Tolerant. An excellent choice for home gardens and market growers. An heirloom variety from the USA. Disease Resistant: A, FW.

## WM14-20 - Moon & Stars Cherokee Watermelons

95 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of deep green 25 lb to 45 lb elongated watermelons with yellow dots. Some dots are large and look like moons and some dots are small and look like stars. The watermelons are 24" long. The leaves are also spotted. The bright pink flesh is very sweet and flavorful. Drought Tolerant. Keep the plants well-watered to achieve uniform watermelons. An heirloom variety from the USA.
