HB81-500 - Quedlinburger Neiderliegende Lemon Balm Seeds

70 days. *Melissa officinalis*. Perennial. Open Pollinated. Quedlinburger Neiderliegende Lemon Balm. This plant produces good yields of lemon-scented leaves. Used for delightful teas, sauces, salads, and summer drinks. Excellent for colds, flu, depression, headaches, and indigestion. This is an improved variety with increased yields, higher essential oil content, and better winter hardiness. An excellent choice for home gardens.
