

Herbs - P

[HB74-500 - Hamburg Rooted Parsley](#)

85 days. *Petroselinum crispum*. Open Pollinated. The plant produces excellent yields of 8" long white roots. The large edible white roots are smooth and have a mild parsley flavor. Easy to grow. Used by many European cooks as a savory ingredient for salads, soups, and stews. An excellent choice for home gardens.

[HB164-500 - Painted Daisy Pyrethrum Seeds](#)

85 days. *Chrysanthemum carinatum*. Perennial. Open Pollinated. Painted Daisy Pyrethrum. The plant produces beautiful daisy flowers. This variety blooms white, pink, and red flowers with yellow centers. Used to make the safest insecticide. It acts directly on the nervous system of aphids, mites, leafhoppers, cabbage worms, and other insects. It will not harm fish, mammals, or plants. To make the insecticide spray, mix 1 tablespoon of freshly ground dried flowers with 2 quarts of hot water. Add a little soap and let sit for a while. This strain can also be used for cut-flower and border plants. An excellent choice for home gardens.

HB123-500 - Pennyroyal

85 days. *Mentha pulegium*. Perennial. Open Pollinated. The plant produces excellent yields of aromatic mint-flavored leaves used in a variety of remedies and used in making tea to ease headaches. It can be added to desserts drinks and dips. Perfect for seasoning dishes, garnishes, and culinary creations. The plant is said to repel flies, gnats, chiggers, ticks, and mosquitoes! For medical uses, it is used to relieve dizziness and vertigo and is useful to help digestion, flatulence, and stomach problems. This crawling plant is used by homeowners to make permanent landscaping along walkways. Also used as an insect repellent and repel mice. An excellent choice for home gardens. United States Department of Agriculture, PI 197822. A variety from the Medeterrain region.

TR4-25 - Peppercorn Seeds (Black Pepper)

Piper nigrum. Perennial. Open Pollinated. Peppercorns. The plant produces excellent yields of black peppercorns. Peppercorns are dried and used to make black pepper. You can grow this tropical tree in containers and bring it indoors in the fall. Try growing your own black pepper plant.

HB78-1000 - Peppermint

85 days. *Mentha piperita*. Perennial. Open Pollinated. The plant produces excellent yields of very aromatic peppermint leaves. The leaves are used to make tea, candies, and desserts. Also used for treating the common cold, asthma, congestion, and indigestion. Attracts beneficial insects. Suitable for containers. An excellent choice for home gardens.
