

Ice Box Size Watermelons

[WM52-20 - Blacktail Mountain Watermelon Seeds](#)

75 days. Citrullus lanatus. Open Pollinated. Blacktail Mountain Watermelon. This early maturing plant produces good yields of high-quality 6 to 10 lb watermelons with dark green skin. The watermelon's scarlet red flesh is very sweet, crunchy, and juicy. Excellent storage variety - stores for up to 2 months! Heat Tolerant. High Humidity Tolerant. Developed by Glenn Drown of Sand Hill Preservation Center in Calamus, Iowa.

[WM25-10 - Cream of Saskatchewan Watermelons](#)

85 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 10 lb white watermelons. The watermelons are very sweet and crisp and flavorful. The plant does well in the New England region. An excellent choice for home gardens and specialty market growers. A variety from Russia.

[WM45-20 - Crimson Sweet Yellow Watermelon Seeds](#)

80 days. Citrullus lanatus. Open Pollinated. Crimson Sweet Yellow Watermelon. This early plant produces good yields of 10 lb striped watermelons. The bright yellow flesh is very favorable. Perfect addition to any gourmet fruit salad. Suitable for market growers and home gardens. An heirloom variety from the USA.

[WM17-20 - Golden Midget Watermelons](#)

70 days. Citrullus lanatus. Open Pollinated. This early maturing plant produces good yields of small 3 lb golden yellow watermelon with salmon-pink flesh. It is very sweet and flavorful. A cross between a New Hampshire Midget and Pumpkin Rind. The watermelon turns golden yellow when fully ripe. Perfect for picnics! This is a very early producing variety that was introduced in 1959. An excellent choice for home gardens and specialty market growers. A variety from the USA.

[WM27-20 - Greybelle Watermelon Seeds](#)

80 days. Citrullus lanatus. Open Pollinated. Greybelle Watermelon. The plant produces good yields of nearly 15 lb round watermelons. It has a grey green rind. The watermelons have dark red flesh and are very sweet and delicious. Resists sunburn. Drought Tolerant. An excellent choice for home gardens and market growers. An heirloom variety from the USA. Disease Resistant: A, FW.

[WM23-10 - Mickylee Watermelon Seeds](#)

88 days. Citrullus lanatus. Open Pollinated. Mickylee Watermelon. The plant produces good yields of very flavorful 15 lb watermelons. The watermelons are very sweet and have bright red flesh. This is a single serving size watermelon. The plant is capable of producing 5 melons per vine. Excellent shelf life. Great for home garden and market growers. United States Department of Agriculture, PI 601307.

[WM66-5 - Red Rock Watermelon Seeds \(Seedless\)](#)

85 days. Citrullus lanatus. (F1) Red Rock Watermelon. The plant produces high yields of 15 to 17 lb dark green striped watermelons. It has very sweet bright red flesh with high Brix content. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Red Rock as a pollinator. It is an excellent shipping variety with a good shelf life. Always a great seller at Farmer's Markets! An excellent choice for home gardens and market growers. Disease Resistant: A, FW.

Seedless Watermelons Require Special Attention. The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

[WM20-10 - Yellow Baby Doll Watermelons](#)

68 days. Citrullus lanatus. (F1) This early maturing semi-compact plant produces good yields of 7 lb icebox-type watermelons. It has very sweet bright yellow flesh. The family will love this variety! One of the earliest yellow varieties on the market that is suitable for small gardens. Try growing yellow, red, pink, red, and white watermelons for a beautiful gourmet fruit salad. Always a great seller at Farmer's Markets! An excellent choice for home gardens and specialty market growers.

[WM18-20 - Sugar Baby Watermelon Seeds](#)

75 days. Citrullus lanatus. Open Pollinated. Sugar Baby Watermelon. This early maturing plant produces good yields of small 8 to 10 lb oval watermelons. The red flesh is very sweet and flavorful. Just the right size to fit in your refrigerator. It has a tough rind and resists cracking. This bush plant is suitable for small gardens. It grows well in the North, as it's one of the earliest watermelons available. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. An 1859 heirloom variety. United States Department of Agriculture, NSL 5319.

[WM75-20 - Yellow Petite Watermelons](#)

90 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 5 to 7 lb round watermelons with light green rind and narrow dark green stripes. It has very sweet and delicious bright yellow flesh. This icebox-type watermelon is perfect for refrigerators! Great for fruit salads and picnics. Suitable for small gardens. Good foliage protection from the sun and resisting sunburn. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. An heirloom variety from the USA.
