

Peas

PE1-50 - Cascadia Snap Pea Seeds

65 days. Pisum sativum. Open Pollinated. Cascadia Snap Peas. The plant produces heavy yields of 3 to 4" long snap peas. They are crisp, sweet, sugary, and very flavorful. Pick snow peas before the seeds start to develop inside. Perfect for stir fry. Use fresh, for canning, or freezing. Plants require no staking since they reach only about 30" in height. Suitable for hydroponics gardening. An excellent choice for home gardens.

Developed by Dr. Jim Baggett at Oregon State University for the Northwest region. Disease Resistant: FW, PEMV, PM.

PE33-50 - Tom Thumb Sweet Pea Seeds

55 days. Pisum sativum. Open Pollinated. Tom Thumb Sweet Peas. This dwarf plant produces good yields of sweet peas. Perfect fresh in salads, in soups, and used in cooking. Suitable for indoor or outdoor containers. Great for your patio or close to the kitchen. This variety is also suitable for cold frame production and hydroponics gardening. This pea can take temperatures down to 20 F. Also known as Half Pint Pea.

An excellent choice for home gardens. An English heirloom variety dating back to 1854.
