## [SQ2-20 - Black Beauty Zucchini Squash Seeds](#)

### **1957 All-America Selections Winner!**

60 days. Cucurbita pepo. Open Pollinated. Black Beauty Zucchini Squash. This early maturing bush type plant produces high yields of straight dark green zucchini squash. The outer surface is very smooth. It is best when harvested when squash is 8" long. This is an improved variety over the old Black Zucchini. This bush type plant is suitable for smaller gardens. United States Department of Agriculture, NSL 7370. A summer squash variety.

## [SQ41-20 - Bush Delicata Squash](#)

### **2002 All-America Selections Winner!**

100 days. Cucurbita pepo. Open Pollinated. This compact plant produces excellent yields of 4" wide by 8" long green-striped oblong squash. It has rich deep golden-orange flesh. The taste is similar to that of a sweet potato. This variety has a smaller seed cavity and thicker walls than other Delicata varieties. The squash has a long shelf life, up to 4 months, meaning you can enjoy eating the squash into the winter months. This bush-type plant spreads only 36" and is suitable for small gardens. Space them closer together for higher yields. An excellent choice for home gardens, farmer's markets, and market growers. Also known as Cornell's Bush Delicata Squash. A variety was developed by Molly Jahn and George Moriarty at Cornell University. A winter squash variety. Disease Resistant: PM.

## [SQ46-20 - Caserta Zucchini Squash Seeds](#)

### **1949 All-America Selections Winner!**

65 days. Cucurbita pepo. Open Pollinated. Caserta Zucchini Squash. This early maturing bush-type plant produces high yields of 16" long grayish-green zucchini squash with dark green stripes. Very flavorful. An excellent choice for home gardens. United States Department of Agriculture, NSL 5231. A summer squash variety.

## [SQ43-20 - Cream of the Crop Squash Seeds](#)

### **1990 All-America Selections Winner!**

75 days. Cucurbita pepo. Open Pollinated. Cream of the Crop Squash. This bush plant produces high yields of 3 lb acorn squash. The squash has creamy white skin and golden-cream flesh and has excellent baking qualities. Stores well. This bush plant is suitable for small gardens. An excellent choice for home gardens, farmer's markets, and market growers. A winter squash variety.

## [SQ61-10 - Early Butternut Squash Seeds](#)

### **1979 All-America Selections Winner!**

85 days. Cucurbita pepo. (F1) Early Butternut Squash. The plant produces very high yields of 2 to 2 ½ lb yellowish butternut squash. The squash has a small seed cavity. The deep reddish orange flesh has a nutty and extremely sweet flavor. The flesh has a firm texture that does not become mushy or watery in baking or when pureed to make pies and soups. Stores well. An excellent choice for home gardens. A winter squash variety.

## [SQ10-20 - Early Prolific Straightneck Squash Seeds](#)

### **1938 All-America Selections Winner!**

48 days. Cucurbita pepo. Open Pollinated. Early Prolific Straightneck Squash. This early maturing plant produces high yields of creamy-yellow slightly club shaped squash. This is a quality squash. Best when harvested when 7" long or smaller. An excellent choice for home gardens. United States Department of Agriculture, NSL 5232. A summer squash variety.

### **SQ24-20 - Fordhook Zucchini Squash Seeds**

#### **1942 All-America Selections Winner!**

57 days. Cucurbita pepo. Open Pollinated. Fordhook Zucchini Squash. This early maturing bush plant produces high yields of 8 to 12" long zucchini. The squash is dark green and is straight to slightly curved. Its flesh is creamy white, tender, and very tasty. Best harvested when 5" to 7" long. It freezes well too. A favorite in the Southwest of the United States and Mexico. Heat Tolerant. An excellent choice for home gardens and market growers. A summer squash variety.

### **SQ104-20 - Gold Nugget Squash Seeds**

#### **1966 All-America Selections Winner!**

85 days. Cucurbita pepo. Open Pollinated. Gold Nugget Squash. This bush plant produces good yields of 1 to 3 lb pumpkin shaped buttercup squash. The orange flesh is very sweet and used as a substitute for sweet potatoes. It is usually steamed or baked and added to soups, stews, curries, and desserts. It keeps well too. Plant close together and it can be a real space saver. Suitable for small gardens. An excellent choice for home gardens. A winter squash variety.

### **SQ1-10 - Gold Rush Squash Seeds**

#### **1980 All-America Selections Winner!**

50 days. Cucurbita pepo. (F1) Gold Rush Squash. This early maturing compact plant produces good yields of 10" long brilliant golden yellow zucchini squash. Its creamy white flesh is delicious. They may be picked young for gourmet dishes or they may be allowed to reach full size and the flavor remains the same. The squash has waxy skin creating a nice protective barrier against insects. Each plant will occupy only about four square feet. Squash lovers should try this variety at least once. An excellent choice for home gardens and market growers. A summer squash variety.

### **SQ53-20 - Peter Pan Squash Seeds**

#### **1982 All-America Selections Winner!**

49 days. Cucurbita pepo. Open Pollinated. Peter Pan Squash. The plant produces heavy yields of 3" diameter light green scallop-type squash. This gourmet miniature patty pan-type squash is meatier than most patty pans and has a distinctive delicious sweet flavor. One of the best scallop squash varieties on the market. You can pick over a long period. This bush-type plant takes little space making it ideal for small gardens. An excellent choice for home gardens, farmer's markets, and market growers. A summer squash variety.

### **SQ52-10 - Sweet Mama Squash Seeds**

#### **1979 All-America Selections Winner!**

100 days. Cucurbita maxima. (F1) Sweet Mama Squash. This semi bush plant produces high yields of 3 to 4 lb dark green kabocha squash. The dark yellow flesh is extremely sweet and nutty. Excellent storage variety that keeps well for 4 months. The plant has space-saving short vines making it ideal for small gardens. Also known as Japanese Pumpkin. An excellent choice for home gardens, farmer's markets, market growers, open field production, and commercial production. A winter squash variety.

### **SQ31-20 - Table King Squash Seeds**

#### **1974 All-America Selections Winner!**

85 days. Cucurbita pepo. Open Pollinated. Table King Squash. This compact bush type plant produces high yields of 2 lb dark gray-green acorn squash. The orange flesh is never stringy and very flavorful. Excellent baked, stuffed, sliced, fried, roasted, or steamed. The squash is a fantastic keeper and its flavor even improves during storage. This variety is regarded as one of the most prolific winter squash available as it yields as many as 8 squashes per plant! It is perfect for small home gardens as it only grows around 3 ft in diameter. An heirloom variety from the United States of America. Suitable for home gardens, farmer's markets, market growers, and commercial growers. United States Department of Agriculture, NSL 98075. A summer squash variety.

### **SQ32-20 - Table Queen Squash**

#### **1939 All-America Selections Winner!**

85 days. Cucurbita pepo. Open Pollinated. The plant produces good yields of large 6" to 7" deep green acorn squash. The squash has flavorful dark orange flesh but turns to a golden orange color in storage. Excellent sliced, fried, or steamed. Stores well. Grows well even in poor soil. Iowa Seed Company introduced this variety in 1913. An 1800 Native American heirloom variety (Arikara Indian tribe) from the United States of America. An excellent choice for home gardens. A winter squash variety.

### **SQ22-20 - Waltham Butternut Squash Seeds**

#### **1970 All-America Selections Winner!**

100 days. Cucurbita moschata. Open Pollinated. Waltham Butternut Squash. The plant produces high yields of 6 lb tan butternut squash. The squash has yellow orange flesh which is solid, dry, and very sweet. Excellent baked, steamed, or microwaved. Keeps well. One of our best selling winter squash. Vines grow 8 to 10 feet long so leave plenty of room in your garden. A 1940s heirloom variety developed by Bob Young of Waltham, Massachusetts which continues to set the standard in butternut squash. An excellent choice for home gardens, farmer's markets, and market growers. United States Department of Agriculture, NSL 73985. A winter squash variety.
