

Carrots

[CT9-750 - Emperor 58 Carrot Seeds](#)

1933 All-America Selections Winner!

75 days. *Daucus carota*. Open Pollinated. Emperor 58 Carrot. The plant produces 9" long deep orange carrots. This is an excellent overall carrot, very flavorful. It is very sweet and tender. These are found in many supermarkets because of their uniform size and smooth skin. It does best in loose soils. Stores well. An excellent choice for home gardens, farmer's markets, and market growers. United States Department of Agriculture, NSL 6183.

[CT31-250 - Purple Haze Carrot Seeds](#)

2006 All-America Selections Winner!

73 days. *Daucus carota*. (F1) Purple Haze Carrot. The plant produces sweet and tender 7 to 10" long deep purple-skinned carrots with a bright orange core. Excellent fresh in salads or cooked for gourmet dishes. Makes quite a beautiful display when sliced on a relish tray. The carrot retains its color when lightly cooked, however, it loses its vibrant purple color when it is cooked longer. Add color to your favorite dish by growing yellow, white, and purple carrots. Plant seeds between May and July so it does not bolt. An excellent choice for home gardens.

[CT25-750 - Thumbelina Carrot Seeds](#)

1992 All-America Selections Winner!

60 days. *Daucus carota*. Open Pollinated. Thumbelina Carrot. The plant produces good yields of small 1 to 2" round orange carrots. Their pumpkin-colored orange skin is tender and requires no peeling. Chefs use this variety in gourmet dishes. These baby-size carrots are excellent in stews. Very flavorful and retains its orange color when cooked. Stores well. This is a very popular carrot that can be grown in containers. Grows well in clay soil. Excellent choice for home gardens and market growers.
