

Cauliflower

[CF13-25 - Cheddar Cauliflower Seeds](#)

68 days. Brassica oleracea. (F1) Cheddar Cauliflower. The plant produces excellent yields of 8" heads of orange cauliflower. The color deepens when cooked. It contains 25 times the beta carotene of white varieties! Add color to your salads and gourmet dishes. Holds well in the fields. Prefers moderate to cool temperatures and plenty of water. Do not wrap up leaves, heads should be left open for maximum color. An excellent choice for home gardens and market growers. A variety from the USA.

[CF2-500 - Early Snowball Cauliflower Seeds](#)

60 days. Brassica oleracea. Open Pollinated. Early Snowball Cauliflower. The plant produces good yields of 6 to 8" heads of pure white cauliflower. It is very flavorful, solid, crisp, and tender. Good fresh or steamed. Freezes well. It is a self-blanching variety, but many growers still tie the leaves up and around the head to protect it. Excellent choice for home gardens and market growers. An heirloom variety was introduced to the United States in 1888 by Peter Henderson & Company. United States Department of Agriculture, PI 303134.

[ES4 - Emergency Survival Seeds Kit \(20 Vegetables Varieties\)](#)

This Emergency Survival Seeds Kit has 20 different vegetable varieties. The seeds are specially dried and sealed for long-term emergency survival seed storage. All seeds are open-pollinated heirloom varieties and 100% non-GMO. This kit should be a priority for any preparedness plan for national food shortages, war, or national disasters. The seeds selected are adaptable to short-season climates and do well in all regions of the country and are easy to grow for first-time gardeners. It includes planting instructions and a seed-saving guide. The kit includes Beets, Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Celery, Cucumbers, Eggplants, Hot Peppers, Kohlrabi, Okra, Pumpkins, Radishes, Squash, Sweet Peppers, and Tomatoes. Buy and keep a supply of kits to provide for family security during times of uncertainty in the food supply chain. The kits are moisture-proof and come in a resealable bag.

[CF16-25 - Graffiti Cauliflower Seeds](#)

80 days. Brassica oleracea. (F1) Graffiti Cauliflower. The plant produces large 7 to 8" heads of bright purple cauliflower. The color is retained when cooked. Great raw, boiled, steamed, or stir-fried. Tip: Adding a few drops of lemon to the water helps prevent color fading when cooked. Add color to your salads and gourmet dishes. Heads need full sunlight to obtain full purple color so no need to wrap heads. A must for any specialty market. An excellent choice for home gardens and market growers.

[CF7-50 - Igloo Cauliflower Seeds](#)

70 days. Brassica oleracea. Open Pollinated. Igloo Cauliflower. The plant produces heavy yields of 5 to 7" heads of white cauliflower. The plant has large dense leaves that shield the solid white heads from frost. Can be harvested early for mini cauliflower. Great variety for freezing. Cold Tolerant. Excellent choice for home gardens. A heirloom variety from the USA.

BR16-500 - Romanesco Italia Broccoli/Cauliflower Seeds

75 days. Brassica oleracea. Open Pollinated. Romanesco Italia Broccoli/Cauliflower. The plant produces good yields of lime green cauliflower/broccoli. This is a unique Italian variety with a better taste and texture than other cauliflower/broccoli. It is excellent raw or cooked, it boasts a milder, sweeter flavor than white cauliflower. It has beautiful apple green spiraling buds and is especially well adapted to the north. An excellent choice for home gardens. An heirloom variety from Italy. United States Department of Agriculture, PI 462221.

CF5-500 - Self Blanche Cauliflower Seeds

65 days. Brassica oleracea. Open Pollinated. Self Blanche Cauliflower. The plant produces good yields of large 9 to 12" heads of white cauliflower. Great freezing and pickling variety. Leaves curl upward and cover the head to keep the sun from ruining the white color. Best when grown in cool weather. Plant early spring or fall for the best crops. Excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, NSL 82635.

CF6-50 - Snow Crown Cauliflower Seeds

1975 All-America Selections Winner!

50 days. Brassica oleracea. (F1) Snow Crown Cauliflower. This early maturing plant produces heavy yields of 7 to 8" heads of white cauliflower. Terrific quality and is very flavorful. Great fresh or cooked. Leaves grow upright, protecting heads from sun scorch. It matures early and produces heads even under adverse conditions. Top choice of cauliflower growers. An excellent choice for home gardens and market growers. United States Department of Agriculture, G 24611. A variety from the USA.

CF15-500 - Snowball Self Blanching Cauliflower Seeds

60 days. Brassica oleracea. Open Pollinated. Snowball Self Blanching Cauliflower. The plant produces large 6 to 9" heads of white cauliflower. Great freezing variety. The heads are pure white and the leaves curl upright. The leaves will self-wrap during cool weather, but will not in warm weather. Good for both early and late-season crops. An excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, PI 225853.

CF8-500 - Snowball Y Improved Cauliflower Seeds

68 days. Brassica oleracea. Open Pollinated. Snowball Y Improved Cauliflower. This early maturing plant produces 6 to 8" heads of pure white cauliflower. A good freezer variety. This is a self-blanching type variety as the leaves curl around heads protecting them from the sun. This cauliflower is known for vigorous and rapid growth and long harvest. It's Suitable for both spring and fall plantings. Frost Tolerant. Excellent choice for home gardens and market growers. An heirloom was introduced by Ferry-Morse Seed Company in 1947. United States Department of Agriculture, NSL 6229.

CF17-25 - Veronica Cauliflower Seeds

78 days. Brassica oleracea. (F1) Veronica Cauliflower. The plant produces 6 to 8" heads of lime green cauliflower. The heads have pointed spiral pinnacles. It is sweeter and milder than other varieties with a nutty taste. Excellent raw, cooked, or pickled. Heat Tolerant. Best if planted in summer for fall harvest. Also known as Veronica Romanesco Cauliflower. An excellent choice for home gardens. Disease Resistant: FW, FY.

CF12-500 - Violetta Italia Cauliflower Seeds

85 days. Brassica oleracea. Open Pollinated. Violetta Italia Cauliflower. The plant produces large heads of purple cauliflower. Delicious raw, cooked, or steamed. Turns green when cooked. This purple variety also boasts high levels of anthocyanin, which can slow clotting and prevent heart disease. An excellent choice for home gardens. An heirloom variety from Italy.
